*A world
of solutions
just around you*

We have had experiences in managerial positions for more than 20 years in firms which are leaders in technologies and electro-hydraulic equipments in the automotive field.

Dcominternational is a world of resources which can transform "ideas" into winning results through the best products made in Italy.

Dcominternational is strategically located in Modena, Italy, world-reference with regards to applied technologies for the mechanical, hydraulic and machineries' industry.

Wide range of telescopic arms from 3 to 40 tons capacity and knuckle arm types from 2 to 26 tons capacity. A simple system to work in every "lifting" condition.

WELDOX 700, strong, elastic, low weights, compact sub-frames, incomparable ratio: prices / quality / performances. Extending and retracting: NO PROBLEMS!

Cast components with high mechanical characteristics increases structural strength and resistance on all our Dlift range.

Proportional hydraulic distributors, limited electronic components to avoid operational failures, easy to use and to maintain. Product's reliability over 30 years "on field"!

We have elevated the concept of quality

Innovative, reliable and highly performing mechanical, electro-hydraulic systems and components, thanks to the constant monitoring oriented to the extreme research of the highest quality, day after day, year after year!

Dcominternational
your utmost business value added.
7 days a week, 30 days a month,
365 days a year! We are in a position,
at 360°, to supply you with the highest
standards of technical commercial
advice, custom-made professional
training, global aid and competence
in any field in guarantee of what
is more important for all of us:
the success of our customers!

Dcranes

Recycling and Timber Cranes, from 4 to 30 T/m. Seven product lines, Z and L types, with more than 80 configurations currently available.

ISO certification by D.N.V. The cranes are produced with ultra high strength steel like WELDOX with a great elastic limit. Technical, commercial and service info are available 365 days!

Truck's crane to suit any lifting configuration from 2 to 150 T/m. Wide range of accessories such as radio controls, winches, etc. Free check on weights distribution/stability factor for Your working's safety.

Specific crane models designed to provide high operational performances in the most difficult and stressful working conditions like Marine and Military environment.

Dlink

Each Dlink product will easily lift yours: Sands, Stones, Blocks, Bricks, Logs, Rails, Dung and any agricultural / industrial / construction materials.

Strong and reliable attachments and rotators for cranes and excavators, Grapples, Grabs, Log grabs, Brick stacks and much more, ranging from 40 L to 1,000 L capacities.

All the welded joints and structural components made out of bent steel are elastically balanced under load and have ideal resistance to fatigue.

Quality, low weights and high performances are the main characteristics of the Dlink products range. Build up now a longer life to Your working tools!

“Made in Italy”
all over
the world

Dcominternational
your global partner in terms of
complete solutions in sectors of:
transportation, handling
& recycling, oil & gas, earth-
moving, mechanic and electro-
hydraulics. Components like:
variable and fixed displacement
pumps, hydraulic motors,
PTO's, proportional valves,
hydraulic power packs, steel and
aluminium oil tanks, winches,
grapples, clamshells, cylinders,
accessories for body-builders
and much more.
